Pick recipients + Auto-batch

The screenshot shows the MDM CRM interface for a WhatsApp Campaign. The sidebar on the left includes options like Dashboard, Appointments, CRM (highlighted), Mira Receptionist, Staff, Staff Registry, Attendance, Services, Inventory, POS / Billing, Cash Register, Reviews, and Offers & Plans. The main content area is titled 'WhatsApp Campaign' and includes a sub-header 'Connect with your customers. Share offers, updates and keep them coming back!'. It features four summary cards: '500 Recipients' (Not yet messaged (30 days)), '500 Ready to Send' (999 left in today's limit), '1 Sent today' (of 1000 daily limit), and 'Now Scheduled Time' (Sends as soon as you confirm). A yellow alert bar states: 'WhatsApp credits are running low — 120 left, but 500 guests are still waiting across 1 batch. The next batch needs 500 credits and will pause mid-way. Top up 380+ credits so the blast never stalls.' Below this, the 'Select Recipients (500)' section offers three radio button options: 'All Customers (500 of 1,151 per send)', 'Ready to send — next 500 not yet messaged (850 left)' (selected), and 'Loyal Customers (500 of 759 per send)'. There is also a 'Selected Customers (0)' option. A checkbox for 'Auto-batch the rest' is checked, with a note: 'send 500 now, then the remaining 350 guests in batches of 500 until all 850 are covered (needs =850 credits)'. The 'Release the next batches' section has a dropdown set to 'Daily at a fixed time (automatic)' and a time selector set to '11:00 PM'. A note mentions 'Asia/Kolkata - 500 guests per day - tip: 10-11 AM or 6-8 PM gets more opens' and 'Mira suggests 11:00'. A button 'Use 11:00' is present. The 'Choose Template or Create Message' section is partially visible at the bottom. On the right, a 'Preview (Customer View)' shows a chat interface with a header 'Your salon • Online' and a message placeholder 'Your message preview appears here...'.

- ◆ Choose 'Ready to send — next 500 not yet messaged'. Guests who already got a message in the last 30 days are skipped automatically, so nobody is messaged twice.
- ◆ Keep 'Auto-batch the rest' ticked: 500 go now, the rest follow in batches of 500.
- ◆ Release the next batches: every hour, daily at a time (Mira suggests the best hour), or manually.
- ◆ Watch the yellow credits alert — top up before a batch pauses.

Choose the message + poster

The screenshot displays the MDM CRM interface for creating a campaign. The sidebar on the left lists various management tools. The main content area is divided into three steps:

- Step 1:** Selecting the target audience. Options include 'All Customers (500 of 1,151 per send)', 'Ready to send — next 500 not yet messaged (850 left)', and 'Loyal Customers (500 of 759 per send)'. The 'Auto-batch the rest' option is checked, indicating a strategy to send in batches.
- Step 2: Choose Template or Create Message**. This step offers pre-drafted templates for various occasions like 'Mira's festival radar', 'Navratri', 'Dussehra', and 'Karwa Chauth'. The 'Thank You' template is selected, showing a heartfelt message to guests. A 'Test on my number' button allows for a preview on a personal device.
- Step 3: Add Image / Media (Optional)**. This section provides options to 'Upload your image' or 'Paint campaign poster'.

- ◆ Pick a type: Festival Offer, General Promo, Rebooking, Loyalty, Thank You or Custom.
- ◆ Tap 'Let Mira write it' — Mira drafts the WhatsApp text and picks an image, or upload your own poster.
- ◆ Use 'Test on my number' to receive it on your own WhatsApp first.

The screenshot displays the 'WhatsApp Campaign' interface within the MDM CRM. The top navigation bar includes 'CRM', 'Sat, Sep 19', and a user profile 'MDM Owner ADMIN'. The left sidebar lists various modules: Dashboard, Appointments, CRM (highlighted), Mira Receptionist, Staff, Staff Registry, Attendance, Services, Inventory, POS / Billing, Cash Register, Reviews, and Offers & Plans, with a 'Sign Out' option at the bottom.

The main content area is titled 'WhatsApp Campaign' with the tagline 'Connect with your customers. Share offers, updates and keep them coming back!'. It features a 'Happy Clients Beautiful Journeys' banner and buttons for 'Replies' and 'Hide Campaign History'. Key statistics are shown in four cards: 500 Recipients (All customers), 500 Ready to Send (999 left in today's limit), 1 Sent today (of 1000 daily limit), and Now Scheduled Time (Sends as soon as you confirm).

A warning banner indicates: 'WhatsApp credits are running low — 120 left, but 500 guests are still waiting across 1 batch. The next batch needs 500 credits and will pause mid-way. Top up 380+ credits so the blast never stalls.' with a 'Top up credits' button.

The campaign history shows three batches:

- DONE** Thank You · 19 Sep (19 Sept, 4:18 pm): 1/1 sent. Status: ✓✓✓ Oread · 0 delivered · 0 replied · 0 booked.
- AB-TEST Navratri Glow** 500 guests · 0 of 2 batches done · batch 2 waiting for you: 0/500 sent.
- PAUSED** AB-TEST Navratri Glow (19 Sept, 3:33 pm): Batch 2 of 2 · manual — waiting for you. 0/500 sent. Buttons: 'Send this batch now' and 'Cancel'.
- DONE** AB-TEST Navratri Glow · 16 Sep (16 Sept, 4:33 pm): 300/300 sent. Status: ✓✓✓ Oread · 0 delivered · 0 replied · 0 booked.

At the bottom, the 'Select Recipients (500)' section offers options: 'All Customers (500 of 1,151 per send)' (selected), 'Ready to send — next 500 not yet messaged (850 left)', 'Loyal Customers (500 of 759 per send)', and 'Selected Customers (0)'. A checkbox for 'Auto-batch the rest' is checked, with a note: 'send 500 now, then the remaining 651 guests in batches of 500 until all 1,151 are covered (needs =>1,151 credits)'. A 'View All Customers' link is also present.

The 'Preview (Customer View)' section shows a preview of the campaign message for 'Your salon' (Online) with a placeholder for the message content and a timestamp of 4:35 pm.

- ✦ Tap Send. 'View Campaign History' shows one gold summary card: guests · batches done · next send time.
- ✦ Every batch shows sent / delivered / read / replied / booked.
- ✦ Manual batches wait with a 'Send this batch now' button — mark them released whenever you like.
